Recommendations & Next Steps

- Ensure you have proper legal basis for processing all identified PII.
- Document all processing activities as required by GDPR Article 30.
- Review data retention policies to ensure PII is not kept longer than necessary.
- Implement appropriate technical and organizational measures to secure PII.

Data Sustainability Recommendations

- Implement data minimization practices to collect only necessary personal data.
- Establish clear data retention periods and automated deletion processes.
- Regularly audit and clean databases to remove redundant or obsolete data.
- Design systems with privacy by design principles to improve sustainability.
- Consider data storage optimization to reduce environmental impact of data centers.
