Recommendations & Next Steps

• Ensure you have proper legal basis for processing all identified PII.

• Document all processing activities as required by GDPR Article 30.

• Review data retention policies to ensure PII is not kept longer than necessary.

• Implement appropriate technical and organizational measures to secure PII.

Data Sustainability Recommendations

• Implement data minimization practices to collect only necessary personal data.
• Establish clear data retention periods and automated deletion processes.
• Regularly audit and clean databases to remove redundant or obsolete data.
• Design systems with privacy by design principles to improve sustainability.
• Consider data storage optimization to reduce environmental impact of data centers.
